THE JOURNAL OF HAND SURGERY

Official journal
AMERICAN SOCIETY FOR SURGERY OF THE HAND

VOLUME 7 JANUARY-DECEMBER, 1982

Editor in Chief
Adrian E. Flatt, M.D.

Editor Emeritus
Joseph H. Boyes, M.D.

Assistant Editor
F. William Bora, Jr., M.D.

Editorial Office
Department of Orthopaedics
Baylor University Medical Center
3500 Gaston Avenue
Dallas, TX 75246
Telephone: (214) 820-2865

Associate Editors

Richard I. Burton, *Rochester, N.Y.*
Bradford Cannon, *Boston*
Richard G. Eaton, *New York*
David W. Furnas, *Orange*
William P. Graham III, *Hershey*
Norman A. Hill, *New York*
Richard K. Johnson, *Los Gatos*
John C. Kelleher, *Toledo*
Lynn D. Ketchum, *Overland Park*
Morton Spinner, *Brooklyn*
James W. Strickland, *Indianapolis*
Chris P. Tountas, *St. Paul*
James R. Urbaniak, *Durham*
Paul M. Weeks, *St. Louis*
Andrew J. Weiland, *Baltimore*

Corresponding Editors

Subject Index*

A

Abductor-plasty, flexor pollicis longus, for spastic thumb-in-palm deformity (Smith), 327
Addicts, drug, tenosynovitis in (Dhaliwal), 626
Adults, open treatment of fingertip injuries in (Chow and Ho), 470
Amputated fingers, surgeons with—Less than 10 (Brown), 31
Amputation and replantation, digital—Comparison of function (Jones et al), 183
Anatomy, pathological, of the hands in Apert's syndrome (Green), 450
Aneurysm(s), asymptomatic ulnar artery, cyanotic and painful index and long fingers associated with: Case report (May et al), 622
  traumatic, of a common digital artery—A case report (Sanchez et al), 619
  true, of digital artery (Layman et al), 617
    palmar—Case report and literature review (Aulicino), 613
  ulnar artery false, at the Guyon's canal, ulnar nerve compression secondary to (Kalisman et al), 137
Angiography, microvascular response to (Peimer and Eckert), 4
Animal bites, domestic, major cause of hand infections following—*Pasteurella multocida* (Arons et al), 47
Anomalies of the upper limb, congenital, among the Chinese population in Hong Kong (Leung et al), 563
Anteroposterior differentiation, a limb without—Ulnar demelia (Gorriz), 466
Apert's syndrome, pathological anatomy of the hands in (Green), 450
Aphalangic hand, reconstruction of, composite toe (phalanx and epiphysis) transfers in (Goldberg and Watson), 454
Arterial supply of ligaments of metacarpophalangeal joints (Bonnel et al), 445
Artery: *see also* specific
Artery catheter, indwelling radial, hematogenous *Serratia marcescens* osteomyelitis of the carpal scaphoid from an (Knutson et al), 395
Arthritis, psoriatic, hand involvement in (Belsky et al), 203
Arthrodesis, scapho-trapezio-trapezium, management of chronic rotary subluxation of the scaphoid by (Kleinman et al), 125
Arthroplasty, silicone replacement, update on—Kienböck's disease (Lichtman et al), 343
  trapezium resection, silicone spacer or tendon spacer for—Comparison of results (Amadio et al), 237
Aspergillosis, invasive, of the hand (Goldberg et al), 38
Augmentation tenodesis, ulnotriquetral: A reconstructive procedure for dorsal subluxation of the distal radioulnar joint (Hui and Linscheid), 230
Autogenous whole joint transfer, vascularized, in the hand—A clinical study (Tsai et al), 335
Autografts, vascularized total joint, experimental—A primate study (Tsai et al), 140
Avascular necrosis of the proximal pole of the capitate, surgical treatment of—Case report (Kimmel and O'Brien), 284
Avulsion-fracture at the proximal attachment of the radial collateral ligament of the fifth metacarpophalangeal joint—A case report (Gee and Pho), 526

Axillary nerve injuries—21 cases treated by nerve graft and neurolysis (Petrucci et al), 271

B

Bites, domestic animal, major cause of hand infections following—*Pasteurella multocida* (Arons et al), 47
Blacks, macrodactyly in (Ofodile), 567
Bone lesions, hemangioma with (Wood), 287
Bunnell, Sterling, 1882-1957 (Boyes), 217 (Tribute)

C

Canine flexor tendons, healing, effects of early intermittent mobilization on (Gelberman et al), 170
Capitate, proximal pole of, surgical treatment of avascular necrosis of—Case report (Kimmel and O'Brien), 284
Carpal instability, palmar, secondary to dislocation of scaphoid and lunate: Report of case and review of the literature (Taleisnik et al), 606
  treatment of, without joint fusion—Current assessment (Goldner), 325
  scaphoid, hematogenous *Serratia marcescens* osteomyelitis of, from an indwelling radial artery catheter (Knutson et al), 395
  tunnel, median nerve compression in the—Functional response to experimentally induced controlled pressure (Lundborg et al), 252
    syndrome, nerve conduction studies and sensibility testing in (Spindler and Dellon), 260
Carpi ulnaris tendon, extensor, posttraumatic recurrent subluxation of (Burkhart et al), 1
Catheter, indwelling radial artery, hematogenous *Serratia marcescens* osteomyelitis of the carpal scaphoid from an (Knutson et al), 395
Central polydactyly—A review of 12 cases and their surgical treatment (Tada et al), 460
Chaplain's role in holistic patient care—Hand injuries (Sheehan and Wathen), 200
Chinese population in Hong Kong, congenital anomalies of the upper limb among (Leung et al), 563
Collateral ligament, radial, of the fifth metacarpophalangeal joint, avulsion-fracture at the proximal attachment of—A case report (Gee and Pho), 526
Committee for Surgery of the Hand, Joint (Omer), 221
Compression, median nerve, in the carpal tunnel—Functional response to experimentally induced controlled pressure (Lundborg et al), 252
  syndrome of the recurrent motor branch of the medial nerve (Bennett and Crouch), 407
  ulnar nerve, secondary to ulnar artery false aneurysm at the Guyon's canal (Kalisman et al), 137
Computed tomography, detection of a wooden foreign body in the hand using—Case report (Rhoades et al), 306
Conduction studies, nerve, and sensibility testing in carpal tunnel syndrome (Spindler and Dellon), 260
Congenital anomalies of upper limb among the Chinese population in Hong Kong (Leung et al), 563
  hand defects, toe transfers for (Gilbert), 118
  hemangioendothelioma of the hand—Case report (Moss et al), 53

*January, pp 1-106; March, pp 107-216; May, pp 217-324; July, pp 325-434; September, pp 435-542; November, pp 543-656.

Congenital—cont'd
malformations of the upper limb, estimate of population frequency of (Lamb et al), 557
Constriction ring syndrome—Unusual case report (Opgrande), 11
Contracture, Dupuytren's, prediction of spiral nerve in (Short and Watson), 84
release, moderate thumb-index web, dorsal pedicle flap for resurfacing (Sandzén), 21
Cross-finger subcutaneous flap, reversed (Atasoy), 481
Cubital tunnel syndrome, macrodactyly in ulnar nerve distribution associated with (Stern and Myquist), 569
Cyanotic painful index and long fingers associated with an asymptomatic ulnar artery aneurysm: Case report (May et al), 622

D

Demelia, ulnar—A limb without anteroposterior differentiation (Gorriz), 466
Digital artery, a common, traumatic aneurysm of—A case report (Sanchez et al), 619
true aneurysm of (Layman et al), 617
nerves, proper, infiltrating lipoma of (Kalisman and Dolich), 401
reconstruction using the toe flap—Report of 10 cases (Leung and Ma), 366
replantation and amputation—Comparison of function (Jones et al), 183
distal to the proximal interphalangeal joint (May et al), 161
Digitorum profundus injuries, flexor, isolated, 100 tendon grafts for (McClinton et al), 224
Digits, opposable, microvascular double toe transfer for—Case report and rationale for treatment (Kichtman et al), 279
Dislocation of the distal interphalangeal joint, irreducible, cause for—Displaced intra-articular osteochondral fracture (Stripling), 77
irreducible palmar, of the proximal phalanx of the thumb—Case report (Gunther and Zielinski), 515
Distal interphalangeal joints of human fingers (Gigis and Kuczynski), 176
irreducible dislocation of, cause for—Displaced intra-articular osteochondral fracture (Stripling), 77
radial fractures, complications of: Pins and plaster treatment (Chapman et al), 509
Domestic animal bites, major cause of hand infections following—*Pasteurella multocida* (Arons et al), 47
Dorsal Dupuytren's disease (Hueston), 384
Drug addicts, tenosynovitis in (Dhaliwal), 626
Dupuytren's contracture, prediction of spiral nerve in (Short and Watson), 84
disease, dorsal (Hueston), 384

E

Elbow flexion, latissimus dorsi musculocutaneous flap for (Stern et al), 25
Electrophysiological study of nerve grafting (Yamano), 588
Epiphysis and phalanx toe transfers, composite, in reconstruction of aphalangic hand (Goldberg and Watson), 454
Etiology, unusual—Froment's paper sign and Jeanne's sign (Drury and Stern), 404
Extensor carpi ulnaris tendon, posttraumatic recurrent subluxation of (Burkhart et al), 1

F

Fasciitis, necrotizing, of the upper extremity (Schecter et al), 15
Fibrosis, peritendinous, of the dorsum of the hand, experience with (Redfern et al), 380
Fibular graft, vascularized, for infected loss of the ulna: Case report (Hurst et al), 498
Finger(s), amputated, surgeons with—Less than 10 (Brown), 31
flexion force and hand grip strength after tendon repair (Ejeskär), 61
human, distal interphalangeal joints of (Gigis and Kuczynski), 176
painful cyanotic index and long, associated with asymptomatic ulnar artery aneurysm: Case report (May et al), 622
peripartum pseudomalignant myositis ossificans of (Schecter et al), 43
Fingertip injuries in adults, open treatment of (Chow and Ho), 470
Flap, dorsal pedicle, for resurfacing a moderate thumb-index web contracture release (Sandzén), 21
latissimus dorsi musculocutaneous, for elbow flexion (Stern et al), 25
pectoralis major island, for coverage in the upper extremity (Luce and Gottlieb), 156
reversed cross-finger subcutaneous (Atasoy), 481
thenar—Analysis of its use in 150 cases (Melone et al), 291
toe, digital reconstruction using—Report of 10 cases (Leung and Ma), 366
Flexion, elbow, latissimus dorsi musculocutaneous flap for (Stern et al), 25
force, finger, and hand grip strength after tendon repair (Ejeskär), 61
Flexor digitorum profundus injuries, isolated, 100 tendon grafts for (McClinton et al), 224
pollicis longus abductor-plasty for spastic thumb-in-palm deformity (Smith), 327
tendons, canine, healing, effects of early intermittent mobilization on (Gelberman et al), 170
in primates, nutrient pathways of (Manske and Lesker), 436
tenosynovitis, gonococcal, acute, in a woman with asymptomatic gonorrhea—Case report and review of the literature (Balcomb), 521
Foreign body in the hand, wooden, detection of using computed tomography—Case report (Rhoades et al), 306
Fracture(s), displaced intra-articular osteochondral—Cause for irreducible dislocation of the distal interphalangeal joint (Stripling), 77
distal radial, complications of: Pins and plaster treatment (Chapman et al), 509
model, phalangeal—Quantitative analysis of rigidity and failure (Massengill et al), 264
Free tissue transfers for upper extremity reconstruction (Daniel and Weiland), 66
Froments paper sign and Jeanne's sign—Unusual etiology (Drury and Stern), 404
Functional response to experimentally induced controlled pressure—Median nerve compression in the carpal tunnel (Lundborg et al), 252
Fusion, joint, treatment of carpal instability without—Current assessment (Goldner), 325

G

Ganglion, compression of a posterior interosseous nerve by a—Case report (Mass et al), 92
Glomus tumor associated with pacinian hyperplasia—Case report (Greider and Flatt), 113

Gonococcal flexor tenosynovitis, acute, in a woman with asymptomatic gonorrhea—Case report and review of the literature (Balcomb), 521
Gonorrhea, acute gonococcal flexor tenosynovitis in a woman with—Case report and review of the literature (Balcomb), 521
Graft(s), nerve, and neurolysis, 21 cases treated by—Axillary nerve injuries (Petrucci et al), 271
vascularized fibular, for infected loss of the ulna: Case report (Hurst), 498
100 tendon, for isolated flexor digitorum profundus injuries (McClinton et al), 224
Grafting, nerve, an electrophysiological study of (Yamano), 588
Grip strength, hand, and finger flexion force after tendon repair (Ejeskär), 61
Guyon's canal, ulnar artery false aneurysm at, ulnar nerve compression secondary to (Kalisman et al), 137

H

Hand(s): *see also* specific condition or injury
Hand grip strength, finger flexion force and, after tendon repair (Ejeskär), 61
injured, patient with the (Murray), 543 (Presidential Address)
injuries—Chaplain's role in holistic patient care (Sheehan and Wathen), 200
Joint Committee for Surgery of (Omer), 221
surgery, subcertification for (Smith), 107
vascularized autogenous whole joint transfer in—A clinical study (Tsai et al), 335
Hemangioendothelioma, congenital, of the hand—Case report (Moss et al), 53
Hemangioma with bone lesions (Wood), 287
Hematogenous *Serratia marcescens* osteomyelitis of the carpal scaphoid from an indwelling radial artery catheter (Knutson et al), 395
Holistic patient care, chaplain's role in—Hand injuries (Sheehan and Wathen), 200
Hong Kong, Chinese population in, congenital anomalies of the upper limb among (Leung et al), 563
Hydrogen washout technique in monitoring vascular status after replantation surgery (Glogovac et al), 601
Hyperplasia, pacinian, glomus tumor associated with—Case report (Greider and Flatt), 113

I

Index and long fingers, cyanotic painful, associated with an asymptomatic ulnar artery aneurysm: Case report (May et al), 622
Indwelling radial artery catheter, hematogenous *Serratia marcescens* osteomyelitis of the carpal scaphoid from an (Knutson et al), 395
Infected loss of the ulna, vascularized fibular graft for: Case report (Hurst), 498
Infections, hand, following domestic animal bites, major cause of—*Pasteurella multocida* (Arons et al), 47
treated, factors related to resolution of (Glass), 388
Infiltrating lipoma of proper digital nerves (Kalisman and Dolich), 401
Injured hand, patient with the (Murray), 543 (Presidential Address)
Injury(ies), axillary nerve—21 cases treated by nerve graft and neurolysis (Petrucci et al), 271
hand—Chaplain's role in holistic patient care (Sheehan and Wathen), 200
Injury(ies)—cont'd
isolated flexor digitorum profundus, 100 tendon grafts for (McClinton et al), 224
ring, an unusual presentation of (Drewniany et al), 194
Internal stabilization in the thumb (Srinivasan and Landsmeer), 371
Interosseous nerve, posterior, compression of, by a ganglion—Case report (Mass et al), 92
syndromes, simultaneous posterior and anterior (Cohen and Cukier), 398
Interphalangeal joint(s), distal, of human fingers (Gigis and Kuczynski), 176
irreducible dislocation of, cause for—Displaced intra-articular osteochondral fracture (Stripling), 77
proximal, digital replantation distal to (May et al), 161
Intra-articular osteochondral fracture, displaced—Cause for irreducible dislocation of the distal interphalangeal joint (Stripling), 77
Intraosseous wire (Scheker), 629
Invasive aspergillosis of the hand (Goldberg et al), 38
Irreducible palmar dislocation of the proximal phalanx of the thumb—Case report (Gunther and Zielinski), 515
Island flap, pectoralis major, for coverage in the upper extremity (Luce and Gottlieb), 156

J

Jeanne's sign and Froment's paper sign—Unusual etiology (Drury and Stern), 404
Joint(s) autografts, vascularized total, experimental—A primate study (Tsai et al), 140
distal interphalangeal, of human fingers (Gigis and Kuczynski), 176
irreducible dislocation of, cause for—Displaced intra-articular osteochondral fracture (Stripling), 77
radioulnar, a reconstructive procedure for dorsal subluxation of: Ulnotriquetral augmentation tenodesis (Hui and Linscheid), 230
fusion, treatment of carpal instability without—Current assessment (Goldner), 325
metacarpophalangeal, ligaments of, arterial supply of (Bonnel et al), 445
proximal interphalangeal, digital replantation distal to (May), 161
replacement, total, at base of the thumb—Preliminary report (Braun), 245
transfer, vascularized autogenous whole, in the hand—A clinical study (Tsai et al), 335

K

Kienböck's disease, radial shortening for the treatment of—A 5- to 10-year follow-up (Almquist and Burns), 348
—Update on silicone replacement arthroplasty (Lichtman et al), 343
Kimura's disease in the hand—Case report (Leung et al), 518

L

Latissimus dorsi musculocutaneous flap for elbow flexion (Stern et al), 25
Learmonth technique, anterior submuscular transposition of the ulnar nerves by (Leffert), 147
Lesions, bone, hemangioma with (Wood), 287
Ligament(s) of metacarpophalangeal joints, arterial supply of (Bonnel et al), 445

Ligament(s)—cont'd
radial collateral, of the fifth metacarpophalangeal joint, avulsion-fracture at the proximal attachment of—A case report (Gee and Pho), 526
scapholunate (Berger et al), 87
Limb replantation, 20 years' experience of—Review of 293 upper extremity replants (Tamai), 549
without anteroposterior differentiation—Ulnar demelia (Gorriz), 466
Lipoma, infiltrating, of proper digital nerves (Kalisman and Dolich), 401
Lunate and scaphoid, palmar carpal instability secondary to dislocation of: Report of a case and review of the literature (Taleisnik et al), 606

M

Macrodactyly in blacks (Ofodile), 567
in ulnar nerve distribution associated with cubital tunnel syndrome (Stern and Myquist), 569
Malformations, congenital, of the upper limb, estimate of population frequency of (Lamb et al), 557
Medial nerve, compression syndrome of recurrent motor branch of (Bennett and Crouch), 407
Median nerve, unusually high division of (Moneim), 13
compression in the carpal tunnel—Functional response to experimentally induced controlled pressure (Lundborg et al), 252
Melanoma, subungual—Case report and literature review (Aulicino and Hunter), 167
Metacarpophalangeal joint(s), fifth, avulsion-fracture at the proximal attachment of the radial collateral ligament of—A case report (Gee and Pho), 526
ligaments of, arterial supply of (Bonnel et al), 445
Microvascular double toe transfer for opposable digits—Case report and rationale for treatment (Kichtman et al), 279
response to angiography (Peimer and Eckert), 4
Mobilization, effects of early intermittent passive, on healing canine flexor tendons (Gelberman et al), 170
Motor branch, recurrent, of the medial nerve, compression syndrome of (Bennett and Crouch), 407
recovery, intrinsic—A long-term study of ulnar nerve repair (Gaul), 502
Muscle(s), direct neurotization of severely damaged (Brunelli), 572
rare anomalous—Palmaris profundus (Dyreby and Engber), 513
Musculocutaneous flap, latissimus dorsi, for elbow flexion (Stern et al), 25
Myositis ossificans, peripartum pseudomalignant, of the finger (Schecter et al), 43

N

Necrosis, avascular, of the proximal pole of the capitate, surgical treatment of—Case report (Kimmel and O'Brien), 284
Necrotizing fasciitis of the upper extremity (Schecter et al), 15
Nerve(s): *see also* specific nerve
Nerve conduction studies and sensibility testing in carpal tunnel syndrome (Spindler and Dellon), 260
grafting, electrophysiological study of (Yamano), 588
injuries, axillary—21 cases treated by nerve graft and neurolysis (Petrucci et al), 271
regeneration across an extended gap: A neurobiological view of nerve repair and the possible involvement of neurotrophic factors (Lundborg et al), 580
—Evidence for early sprout formation (Van Beek et al), 79
Nerve(s)—cont'd
spiral, prediction of, in Dupuytren's contracture (Short and Watson), 84
Neurolysis and nerve graft, 21 cases treated by—Axillary nerve injuries (Petrucci et al), 271
Neuromas of the hand, painful, results of surgical treatment of (Laborde et al), 190
Neurotization, direct, of severely damaged muscles (Brunelli), 572
Nutrient pathways of flexor tendons in primates (Manske and Lesker), 436

O

Open treatment of fingertip injuries in adults (Chow and Ho), 470
Opposable digits, microvascular double toe transfer for—Case report and rationale for treatment (Kichtman et al), 279
Ossificans, peripartum pseudomalignant myositis, of the finger (Schecter et al), 43
Osteochondral fracture, displaced intra-articular—Cause for irreducible dislocation of the distal interphalangeal joint (Stripling), 77
Osteomyelitis, hematogenous *Serratia marcescens*, of the carpal scaphoid from an indwelling radial artery catheter (Knutson et al), 395

P

Pacinian hyperplasia, glomus tumor associated with—Case report (Greider and Flatt), 113
Pain, pisiform area treatment by pisiform excision (Palmieri), 477
Painful index and long fingers, cyanotic, associated with an asymptomatic ulnar artery aneurysm: Case report (May et al), 622
neuromas of the hand, results of surgical treatment of (Laborde et al), 190
Palmar aneurysms, true—Case report and literature review (Aulicino), 613
carpal instability secondary to dislocation of scaphoid and lunate: Report of case and review of the literature (Taleisnik et al), 606
dislocation, irreducible, of the proximal phalanx of the thumb—Case report (Gunther and Zielinski), 515
Palmaris profundus—Rare anomalous muscle (Dyreby and Engber), 513
Pasteurella multocida—Major cause of hand infections following domestic animal bites (Arons et al), 47
Patient care, holistic, chaplain's role in—Hand injuries (Sheehan and Wathen), 200
Pectoralis major island flap for coverage in the upper extremity (Luce and Gottlieb), 156
Pedicle flap, dorsal, for resurfacing a moderate thumb-index web contracture release (Sandzén), 21
Peripartum pseudomalignant myositis ossificans of the finger (Schecter et al), 43
Peripheral nerve transection and repair, progressive ultrastructural changes after (Cabaud et al), 353
Peritendinous fibrosis of the dorsum of the hand, experience with (Redfern et al), 380
Phalangeal fracture model—Quantitative analysis of rigidity and failure (Massengill et al), 264
Phalanx and epiphysis toe transfers, composite, in reconstruction of aphalangic hand (Goldberg and Watson), 454
proximal, of the thumb, irreducible palmar dislocation of—Case report (Gunther and Zielinski), 515
Pins and plaster treatment: Complications of distal radial fractures (Chapman et al), 509

Pisiform area pain treatment by pisiform excision (Palmieri), 477
Plaster, and pins, treatment: Complications of distal radial fractures (Chapman et al), 509
Pollicis longus, flexor, abductor-plasty for spastic thumb-in-palm deformity (Smith), 327
Polydactyly, central—A review of 12 cases and their surgical treatment (Tada et al), 460
Population frequency, estimate of, of congenital malformations of the upper limb (Lamb et al), 557
Posttraumatic recurrent subluxation of extensor carpi ulnaris tendon (Burkhart et al), 1
Pressure, experimentally induced controlled, functional response to—Median nerve compression in the carpal tunnel (Lundborg et al), 252
Primate(s), nutrient pathways of flexor tendons in (Manske and Lesker), 436
study—Experimental vascularized total joint autografts (Tsai et al), 140
Profundus, palmaris—Rare anomalous muscle (Dyreby and Engber), 513
Proximal interphalangeal joint, digital replantation distal to (May et al), 161
Pseudomalignant myositis ossificans, peripartum, of the finger (Schecter et al), 43
Psoriatic arthritis, hand involvement in (Belsky et al), 203
hand (Kapasi et al), 492

R

Radial artery catheter, indwelling, hematogenous *Serratia marcescens* osteomyelitis of the carpal scaphoid from an (Knutson), 395
collateral ligament of the fifth metacarpophalangeal joint, avulsion-fracture at the proximal attachment of—A case report (Gee and Pho), 526
fractures, distal, complications of: Pins and plaster treatment (Chapman et al), 509
shortening for treatment of Kienböck's disease—A 5- to 10-year follow-up (Almquist and Burns), 348
Radioulnar joint, distal, a reconstructive procedure for dorsal subluxation of: Ulnotriquetral augmentation tenodesis (Hui and Linscheid), 230
Reconstruction of the aphalangic hand, composite toe (phalanx and epiphysis) transfers in (Goldberg and Watson), 454
digital, using the toe flap—Report of 10 cases (Leung and Ma), 366
upper extremity, free tissue transfers for (Daniel and Weiland), 66
Reconstructive procedure for dorsal subluxation of the distal radioulnar joint: Ulnotriquetral augmentation tenodesis (Hui and Linscheid), 230
Regeneration, nerve, across an extended gap: A neurobiological view of nerve repair and the possible involvement of neurotrophic factors (Lundborg et al), 580
Replacement arthroplasty, silicone, update on—Kienböck's disease (Lichtman et al), 343
Replantation and amputation, digital—Comparison of function (Jones et al), 183
digital, distal to the proximal interphalangeal joint (May et al), 161
limb, 20 years' experience of—Review of 293 upper extremity replants (Tamai), 549
surgery, hydrogen washout technique in monitoring vascular status after (Glogovac et al), 601
Replants, upper extremity, review of 293—Twenty years' experience of limb replantation (Tamai), 549
Resection arthroplasty, trapezium, silicone spacer or tendon spacer for—Comparison of results (Amadio et al), 237
Resurfacing a moderate thumb-index web contracture release, dorsal pedicle flap for (Sandzén), 21
Rheumatoid swan-neck deformity, wrist involvement in (Shapiro), 484
Rigidity and failure, quantitative analysis of—Phalangeal fracture model (Massengill et al), 264
Ring injury, an unusual presentation of (Drewniany et al), 194
syndrome, constriction—Unusual case report (Opgrande), 11
Roentgen filming technique and wrist positioning, effect of—Ulnar variance (Epner et al), 298
Rotary subluxation, chronic, of the scaphoid, management of by scapho-trapezio-trapezoid arthrodesis (Kleinman et al), 125

S

Sandblasting injury of the hand (Belsole et al), 523
Scaphoid, carpal, hematogenous *Serratia marcescens* osteomyelitis of, from an indwelling radial artery catheter (Knutson et al), 395
and lunate, palmar carpal instability secondary to dislocation of: Report of case and review of the literature (Taleisnik et al), 606
management of chronic rotary subluxation of by scapho-trapezio-trapezium arthrodesis (Kleinman et al), 125
Scapholunate ligament (Berger et al), 87
Scapho-trapezio-trapezium arthrodesis, management of chronic rotary subluxation of the scaphoid by (Kleinman et al), 125
Sensibility testing and nerve conduction studies in carpal tunnel syndrome (Spindler and Dellon), 260
Serratia marcescens osteomyelitis, hematogenous, of the carpal scaphoid from an indwelling radial artery catheter (Knutson et al), 395
Silicone replacement arthroplasty, update on—Kienböck's disease (Lichtman et al), 343
spacer or tendon spacer for trapezium resection arthroplasty—Comparison of results (Amadio et al), 237
Skeletal tuberculosis of the wrist and hand: A study of 27 cases (Benkeddache and Gottesman), 593
Spacer, silicone, or tendon spacer for trapezium resection arthroplasty—Comparison of results (Amadio et al), 237
Spastic thumb-in-palm deformity, flexor pollicis longus abductor-plasty for (Smith), 327
Spiral nerve, prediction of, in Dupuytren's contracture (Short and Watson), 84
Sprout formation, evidence for early—Nerve regeneration (Van Beek et al), 79
Stabilization, internal, in the thumb (Srinivasan and Landsmeer), 371
Subcertification for hand surgery (Smith), 107
Subcutaneous flap, reversed cross-finger (Atasoy), 481
Subluxation, chronic rotary, of the scaphoid, management of by scapho-trapezio-trapezium arthrodesis (Kleinman et al), 125
dorsal, of the radioulnar joint, a reconstructive procedure for: Ulnotriquetral augmentation tenodesis (Hui and Linscheid), 230
of extensor carpi ulnaris tendon, posttraumatic recurrent (Burkhart et al), 1
Submuscular transposition, anterior, of the ulnar nerves by the Learmonth technique (Leffert), 147
Subungual melanoma—Case report and literature review (Aulicino and Hunter), 167

Suprascapular nerve entrapment—Case report (Swafford and Lichtman), 57
Surgeons with amputated fingers—Less than 10 (Brown), 31
Surgery of the Hand, Joint Committee for (Omer), 221
Surgical treatment of avascular necrosis of the proximal pole of the capitate—Case report (Kimmel and O'Brien), 284
of painful neuromas of the hand, results of (Laborde et al), 190
Swan-neck deformity, rheumatoid, wrist involvement in (Shapiro), 484
Synovial cavity as "tissue culture in situ"—Science or nonsense? (Potenza and Herte), 196

T

Tendon(s), canine flexor, healing, effects of early intermittent mobilization on (Gelberman et al), 170
extensor carpi ulnaris, posttraumatic recurrent subluxation of (Burkhart et al), 1
flexor, in primates, nutrient pathways of (Manske and Lesker), 436
grafts, 100, for isolated flexor digitorum profundus injuries (McClinton et al), 224
repair, finger flexion force and hand grip strength after (Ejeskär), 61
spacer or silicone spacer for trapezium resection arthroplasty—Comparison of results (Amadio et al), 237
Tenodesis, ulnotriquetral augmentation: A reconstructive procedure for dorsal subluxation of the distal radioulnar joint (Hui and Linscheid), 230
Tenosynovitis in drug addicts (Dhaliwal), 626
gonococcal flexor, acute, in a woman with asymptomatic gonorrhea—Case report and review of the literature (Balcomb), 521
Thenar flap—Analysis of its use in 150 cases (Melone et al), 291
Thumb, base of, total joint replacement at—Preliminary report (Braun), 245
-index web contracture release, moderate, dorsal pedicle flap for resurfacing (Sandzén), 21
-in-palm deformity, spastic, flexor pollicis longus abductor-plasty for (Smith), 327
internal stabilization in (Srinivasan and Landsmeer), 371
irreducible palmar dislocation of the proximal phalanx of the—Case report (Gunther and Zielinski), 515
"Tissue culture in situ," synovial cavity as—Science or nonsense? (Potenza and Herte), 196
transfers, free, for upper extremity reconstruction (Daniel and Weiland), 66
To wait until the froth has settled (Boyes), 435
Toe flap, digital reconstruction using—Report of 10 cases (Leung and Ma), 366
(phalanx and epiphysis) transfers, composite, in reconstruction of aphalangic hand (Goldberg and Watson), 454
transfer(s) for congenital hand defects (Gilbert), 118
microvascular double, for opposable digits—Case report and rationale for treatment (Kichtman et al), 279
Tomography, computed, detection of a wooden foreign body in the hand using—Case report (Rhoades et al), 306
Transection, peripheral nerve, and repair, progressive ultrastructural changes after (Cabaud et al), 353
Transfer(s), composite toe (phalanx and epiphysis), in reconstruction of aphalangic hand (Goldberg and Watson), 454
microvascular double toe, for opposable digits—Case report and rationale for treatment (Kichtman et al), 279
toe, for congenital hand defects (Gilbert), 118
Transfer(s)—cont'd
vascularized autogenous whole joint, in the hand—A clinical study (Tsai et al), 335
Trapezium resection arthroplasty, silicone spacer or tendon spacer for—Comparison of results (Amadio et al), 237
Traumatic aneurysm of a common digital artery—A case report (Sanchez et al), 619
Treated hand infections, factors related to resolution of (Glass), 388
Tuberculosis, skeletal, of the wrist and hand: A study of 27 cases (Benkeddache and Gottesman), 593
Tumor, glomus, associated with pacinian hyperplasia—Case report (Greider and Flatt), 113

U

Ulna, infected loss of, vascularized fibular graft for: Case report (Hurst), 498
Ulnar artery aneurysm, asymptomatic, cyanotic painful index and long fingers associated with: Case report (May et al), 622
demelia—A limb without anteroposterior differentiation (Gorriz), 466
nerve(s) compression secondary to ulnar artery false aneurysm at the Guyon's canal (Kalisman et al), 137
distribution, macrodactyly in, associated with cubital tunnel syndrome (Stern and Myquist), 569
repair, long-term study of—Intrinsic motor recovery (Gaul), 502
transposition of the anterior submuscular, by the Learmonth technique (Leffert), 147
variance determination (Palmer et al), 376
—Effect of wrist positioning and roentgen filming technique (Epner et al), 298
Ulnaris tendon, extensor carpi, posttraumatic recurrent subluxation of (Burkhart et al), 1
Ulnotriquetral augmentation tenodesis: A reconstructive procedure for dorsal subluxation of the distal radioulnar joint (Hui and Linscheid), 230
Ultrastructural changes, progressive, after peripheral nerve transection and repair (Cabaud et al), 353

V

Variance determination, ulnar (Palmer et al), 376
Vascular status after replantation surgery, hydrogen washout technique in monitoring (Glogovac et al), 601
Vascularized autogenous whole joint transfer in the hand—A clinical study (Tsai et al), 335
total joint autografts, experimental—A primate study (Tsai et al), 140

W

Washout technique, hydrogen, in monitoring vascular status after replantation surgery (Glogovac et al), 601
Web contracture release, moderate thumb-index, dorsal pedicle flap for resurfacing (Sandzén), 21
Wire, intraosseous (Scheker), 629
Wooden foreign body in the hand, detection of, using computed tomography—Case report (Rhoades et al), 306
Wrist and hand, skeletal tuberculosis of the: A study of 27 cases (Benkeddache and Gottesman), 593
involvement in rheumatoid swan-neck deformity (Shapiro), 484
positioning and roentgen filming technique, effect of—Ulnar variance (Epner et al), 298
